REINRAUMZUBEHÖR

# Delivery programme / Products

## Reusable and washable cleanroom garments

sterile / non-sterile

- ▶ Cleanroom garments
- ▶ Cleanroom undergarments

standard or customised

## Disposable cleanroom garments

sterile / non-sterile

- ▶ Head, foot and body area

## Face masks & cleanroom goggles

sterile / non-sterile

- ▶ Disposable face masks for various applications
- ▶ Safety goggles (reusable/disposable)

## Cleanroom gloves & finger cots

sterile / non-sterile

- ▶ Disposable gloves
  - nitrile, latex, polypropylene and other materials
- ▶ Textile gloves
  - uncoated, coated
  - antistatic / for ESD-protected areas
- ▶ Protective gloves
  - protection against chemicals, heat or cold

## Cleanroom shoes & socks

- ▶ Occupational footwear & Safety footwear
  - clogs, slippers and sandals
- ▶ Shoes with textile upper
- ▶ Cleanroom socks (reusable/disposable)

## Disinfectants & Detergents

sterile / non-sterile

- ▶ Based on alcohol (IPA / ethanol)
- ▶ Biocides, sporicidal preparations, fungicides etc.
- ▶ Hand hygiene

## Cleanroom wipes

sterile / non-sterile

- ▶ Polyester cellulose wipes
- ▶ Polyester wipes
- ▶ Microfibre wipes
- ▶ Wipes for special requirements
- ▶ Saturated wipes
- ▶ Cotton and cellulose wipes
- ▶ Sponge wipes

## Cleaning & disposal articles

- ▶ Mop systems and handles
- ▶ Cleaning trolleys and accessories
- ▶ Cleaning swabs
- ▶ Special cleaning tools
- ▶ Cleanroom vacuum cleaners
- ▶ Disposal systems

## Tacky mats

- ▶ Removable dust binding foil mats
- ▶ Permanently adhesive and washable tacky mats

## Cleanroom furniture

- ▶ Chairs, stools, work tables, desks
- ▶ Shelving systems, wardrobes and carts
- ▶ Ladders and steps

## Cleanroom paper & pens

## Adhesive tapes & labels

## Dispenser systems & disposable overshoe dispensers

## Particle visualisation lamps

# Services

## Supply concepts

- ▶ Consignment warehouse
- ▶ Full supply systems
- ▶ E-Commerce solutions  
(incl. online shops)

## Staff training

## Research & Development

## Consultancy

Since 1979

Since 1979, **Dastex** has been your competent partner for all questions concerning cleanrooms.

One of our company's maxims is that an optimal range of cleanroom products can only be created and continuously developed if we maintain close contact with operators of cleanrooms.

Our many years of know-how guarantee that an extensive and above all practice-oriented product range is available at all times, which meets all the requirements of our customers and at the same time represents the latest state of cleanroom technology.

Consistently high product quality, combined with competent advice and intensive customer care, are essential components of the Dastex quality principles.

We have a broad international base, speak twelve languages and attach great importance to the training and development of our employees in order to meet the growing demands of our customers in the future.

As a responsible company, **Dastex** has been operating a quality management system in accordance with **DIN EN ISO 9001** for many years.

In order to express the idea of sustainability, **Dastex** has also had its environmental management system certified according to **DIN EN ISO 14001**.

# METRO® creates more space for work

For over 80 years, METRO®'s mission is to make the world more organised and efficient by offering the most creative space and productivity solutions.

Advanced polymer shelving, medical and special application trolleys and carts, storage cabinets, heated cabinets, high shelving, wall shelving, stainless steel finished products etc.

With exceptional adaptability, corrosion resistance, energy-efficient insulation, modularity, manoeuvrability, ergonomics or durability, METRO® offers unrivalled performance that focuses on specific requirements.

In addition to individual furniture solutions, **Dastex**, together with METRO®, offers industry-leading process knowledge for room optimization, workflows and productivity.

Our trained employees put your processes on the right path, to store, implement and save more and more efficiently.

## Top-Track® high-density storage shelving

The Top-Track® high-density storage shelving uses significantly less aisle width as a fixed racking and increases storage capacity by up to 50% without additional construction costs.

The unique compact system enables better organisation of the stored goods and thus improved inventory control.

### Clean design

The overhead rail ensures that the aisles are completely free for easy cleaning and for access with carts and trolleys.

### Versatile

Top-Track® in single depth can be equipped with Metro wire racks (Super Erecta® or Super Adjustable™ Super Erecta®) and polymeric shelf systems (MetroMax i®) can be used. Configurations with double depth can also be created to display the total depth of the storage system for an even larger capacity to increase.

Increased storage capacity  
by up to  
**50%**

# Super Erecta® and Super Adjustable™ Super Erecta® shelving systems

Use  
wasted  
space.

## The original wire shelving system – uncompromising reliability and flexibility

Since 1965 the original adjustable shelving system has been copied, but never reached it.

All Metro wire racking systems are adjustable in increments of 25.4 mm (1") to make optimum use of the available space. The unique Super Adjustable™ Super Erecta® Quick-Adjust Racks have shelf holders that can be easily repositioned without tools to adapt immediately to changing storage needs.

The robust Metro shelves and posts, available in stainless steel Type 304, Metroseal 3™ epoxy coated, chrome plated, epoxy coloured, are designed for use in stationary, mobile, overhead rail and bottom rail configurations.

Depending on the design, a load capacity for stationary shelving with four posts up to 906 kg and for mobile units up to 408 kg is possible. Even for ESD-critical areas Metro offers suitable, conductive solutions.

The Original  
since

1965

often copied – never reached!

# MetroMax i® Polymer shelving systems

The MetroMax i® racks are made of innovative polymer materials with stainless steel Type 304 corners and reinforced centre supports to provide innovative stationary and mobile solutions the strength of conventional wire racks.

The removable shelves with smooth surfaces are easy to clean – ideal for wet environments, walk-in cold rooms, sterile areas and chemical storage.

MetroMax i® shelving systems are also designed for use in stationary, mobile rail systems and wall mounts configurations. A wide range of accessories is available to assist in the receipt, identification, organisation and transport of consumables.

**Exclusively at Metro, Microban® is integrated in all polymer shelf bottoms and surfaces.**

MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban Products Company, Huntersville, NC.

# Starsys™ modular furniture systems

**Metro Starsys™ Laboratory furniture is a polymer-based, highly adaptable system that can be easily reconfigured.**

No matter what you need – open, closed, low or high, mobile, stationary or pre-configured – Starsys™ offers the perfect solution.

The durable Starsys™ furniture features a stable anodized aluminium and metal substructure, combined with innovative polymers with Microban®.

The worktops are made of stainless steel Type 304, TRESPA or epoxy resin and are highly resistant to a variety of aggressive chemicals. They are easy to clean and to disinfect.

A wide selection of accessories and drawer insert colours round off the versatility of the Starsys™ system. Advanced security options are also available, including electronic locks, proximity card readers and mechanical key locks.

# Tables and carts

Large  
**selection**

Carts and accessories

**The wide range of general-purpose carts also includes special carts, such as autoclavable racks, High Performance Liquid Chromatography carts, carts for transporting chemicals, glass vessels and much more.**

The corrosion-resistant tables and carts are made entirely of stainless steel Type 304 or advanced polymers with integrated Microban®.

Work surfaces are available in stainless steel Type 304 or TRESPA phenolic resin in black or grey to choose from.

The available product solutions have a modular structure and offer you maximum flexibility to reconfigure, supplement or disassemble the products, if the requirements change over time.

A wide range of accessories and castor options allows for a further individualisation of work tables and carts.
